

astra steamer

12V ⚡

High pressure professional steam cleaner

external water tank

Following the success of Idromatic's best-selling ASTRA STEAMER EVO comes a new version: The Astra Steamer 12V.

The 12V maintains all the powerful characteristics of the ASTRA STEAMER EVO but is powered by a 12V DC current. A convenient external 30L water tank ensures a sufficient water supply.

The machine can be directly connected to a car battery making it 100% portable and eliminating the need for inverters.
