

astra steamer hybrid

IDROMATIC presents its newest and most innovative product - a STEAM GENERATOR/PRESSURE WASHER hybrid. We have combined our consolidated pressure washer know-how with our latest, most successful steamer technology to create a machine with never-before-seen versatility.

STANDARD ACCESSORIES:

FOR PRESSURE CLEANER

- 10m hose (HP R1)
- Automatic gun RL26
- 120cm lance
- Adjustable nozzle

FOR STEAM GENERATOR

- 1 gun
- 1 teflon nozzle
- 1 10m hose

Technical Specifications

Cold water pressure washer

- FLOW RATE - 8 L/min
- PRESSURE - 150bar (adjustable)
- 3 HP motor with thermal overload protection
- Water intake from mains
- High pressure piston pump
- Total stop
- Adjustable low pressure detergent intake from 5L canister
- Water outlet controlled by switch on control panel

Diesel steam generator

- FLOW RATE - 36 kg/h
- PRESSURE IN BOILER - 9bar
- Water intake from mains or external tank
- Flame detection + water shortage sensor
- Water filter + magnetic limescale device
- Wet/dry regulation
- Steam outlet controlled by switch on control panel
- Optional double steam outlet fitting
